

ZENTURO FENCE PANELS

The product

Stand out from the crowd by choosing a customisable, multifunctional fence made from a high-quality product: that's the promise of ZENTURO fence panel from BE-TAFENCE.

This modern, design and customisable fence offers multiple uses beyond its primary function: support for climbing plants, creation of private screened-off spaces and more.

Its alternating horizontal wires ensure high rigidity, and their coating provides significant durability.

These fence panels can also be used as gabion cages.

Characteristics

Grey 7016 ●

- Ø 5 mm horizontal wire and Ø 4,15 mm vertical wire
