Concrete block

- Reinforced concrete base with internal bars
- Dimensions : 600 x 240 x 135 mm
- Weight : 36 kg (± 1,2 kg)

2 tubes fence

- A tube is placed at every end of the fence
- The panel's folds provide greater rigidity
- Suitable for public and private urban works, trade shows, exhibitions, road checks and signs

4 tubes fence

- 2 tubes are added at the top and bottom of the fence to reinforce the panel's strength
- Ideal for large urban development projects and situations requiring a very sturdy fence
