

ANTI-CLIMB COLLAR

The product

Anti-climb collar prevents intrusion and acts as a deterrent thanks to its spikes.

Installed on posts or gutters, it discourages individuals and animals from climbing and entering industrial or residential sites.

The spikes can be oriented upwards or downwards. The collars can be attached to each other to form a 360° barrier around the post or to a wall.

Characteristics

Galvanised ●

- Fixing around a downspout or post
- 360° protection ensured thanks to its 2 circular arcs
- 3 post diameters : Ø90, Ø120 and Ø140 mm
