

CRUZ X-SHAPED KNOTTED MESH

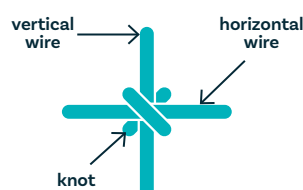

The product

This agricultural fencing is an excellent barrier to prevent small and large livestock from passing through, securing hunting and breeding areas.

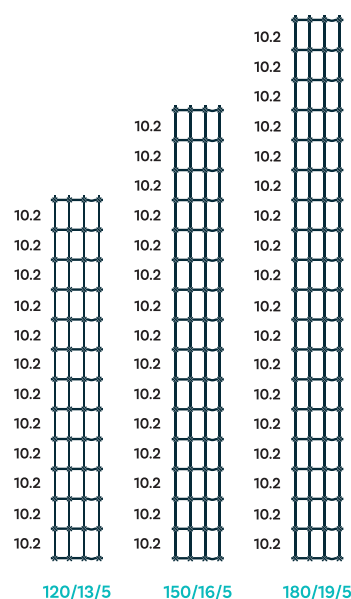

Its specific X-shaped knot is formed by a separate wire that binds the horizontal and vertical wires with very high rigidity at each intersection.

Characteristics

- Maximum height : 2,0 m
- Maximum number of horizontal wires : 19
- Minimum distance between horizontal wires : 7,6 cm
- Minimum distance between vertical wires : 5 cm or 15 cm, depending on specificity
- Wires diameter 2,5 x 2,5 mm, other diameters available (upon request)
- In the case of 2 mm wires, the knot also remains at 2 mm.
- High-strength wires : 1200/1400 MPa and 700/900 MPa
- Most common dimensions : 120/13/5 - 180/19/5
- Rolls up to 500 m available
