

POLYESTER RESID FENCE PANEL

The product

Robust and reliable, Résid fence panels are ideal for marking all types of spaces.

Its polyester coating provides high resistance over time and its horizontal folds reinforce its rigidity.

Résid fence panels blend in with all environments. Its high or low spikes, depending on the orientation, make it possible to secure a perimeter.

This fence is easy to install with notched posts.

Characteristics

Grey 7016 ● Green 6005 ● Black 9005 ● White 9010 ○ Other colours upon request ●

- Wires : Ø4/4 mm (upon request), Ø4/5 mm or Ø5/5 mm
- 55 mm center distance
- 46 vertical wires
- 2 to 4 stiffening folds depending on height
- Galvanised steel wire in accordance with EN 10244-2
- 40 g/m² zinc thickness
- Polyester phosphating coating, polyester thickness 80/100 microns

- Quick installation without fixing accessories between the panel and the post
- Rigidity and quality of materials, ensuring long-lasting performance
- Defensive spikes at the top or bottom, depending on panel's orientation or protection requirements

PANEL HEIGHT (m)	NUMBER OF FOLDS	MESH (mm)	PANEL LENGTH (m)
