

POOL PANEL AND SIDE GATE

The product

This attractive fence will restrict access to the pool for children under five years of age. For communal or private pools, this barrier and its side gate have been designed in accordance with the AFNOR NF P90-306 standard.

Characteristics

Grey 7016 ● Green 6005 ● White 9010 ○ Other colours upon request ●

- Total height above-ground 1380 mm.
- Double anti-corrosion protection: steel wire fence panel with superior galvanisation, zinc coating of 180g/m². High-adhesion polyester powder coating, minimum thickness of 80 to 120 micrometers depending on colour.
- Polyester-coated aluminium post
- Complies with NF P 90 306 standard on "Protective barriers and means of access to pools."
