

MULTIGRAF POST

The product

MULTIGRAF «universal» post with a vertical rack is suitable for installing all types of flexible fences as well as some rigid fence panels.

The different wire meshes are secured using staples.

For rigid fence panels, polyamide fixing clamps and stainless steel screws are used.

Electro-galvanised and powder-coated steel post, 48 mm diameter

240g/m² zinc content.

Choice of colours, all with UV protection.
